

## **Parent to Parent Tips- SCE PTO**

### **Assessments & Picture Day**

**Assessments-** our teachers make assessment day an enjoyable experience for the kids! Children enjoy their assessment time with a smaller group in their classroom, and some one-on-one time with their teacher. While it's not a high pressure "testing" time, the teachers are gathering important data on your child and their learning progress throughout the year. For younger students, check in with your teacher about their preference on drop off and pick up and make appropriate arrangements to get them to and from school for their assessment time.

**Picture Day-** Students will receive an envelope from the photography company and you can choose background colors and packages of pictures to purchase of your beautiful child! There is a Fall picture day (individual pictures) and a Spring picture day (class and individual pictures). Usually, the Spring photo is the one used in the yearbook.

Adult volunteers can drop in on picture day and have a complimentary volunteer badge created for them to wear on the days they are volunteering at our school.
